

Dear Appropriations Committee;

In speaking with a lot of ordinary folks and having many business clients in the community I can tell you one thing for sure: everybody I know thinks our state spends way too much money. They are all concerned about taxes going up and nobody seems to feel like they have any control over their own lives. I am amazed at how many people keep telling me that if it were not for family, they would simply leave.

With that in mind I am begging you,... my legislators,... do not raise the budget cap, do not raise taxes, but instead we need you to CUT costs and reduce our tax load!

Please do not add to our expenses any emergency or other government spending that exceeds the spending cap.

PLEASE SUPPORT SENATE BILL 128.

Greatfully,  
Ron Hunley
